

This price guide covers the most common CD configurations and is laid out so you can find the options best suited to your project and your budget. Please contact me for assistance or for items not covered in this guide. I handle any or all of the four stages of CD replication:

1] Graphic Design (includes design and layout of insert/folder/booklet, tray card and disc label for CDs, or jcard and cassette label for cassettes)

2] Film Output (includes film output of CD label)

3] Printing of Print Materials (includes printing of all designed items)

4] Replication / Duplication (includes up to 5-color silkscreen printing on disc, jewel box for CDs assembly of print materials and CD into the box, cellophane wrap and shipping)

Providing your own design or print materials: If you plan to supply your own completed design on disc or printed materials, please request my digital templates or specifications (for folders, booklets, tray cards and CD label printing). Designs provided on disc will be inspected by BauWau Design prior to printing to confirm that they will output correctly. You will be provided with a complete estimate for any changes to bring the project up to spec. Provided print materials that do not meet factory specifications may be unusable or require additional assembly charges.

Masters: Masters may be submitted in CD-R format. The master should be submitted exactly as you want your CD to be replicated and include P/Q sheets and a list of the track titles and running times. BauWau Design does not accept responsibility for replication of flawed master CD-Rs and you will be asked to sign a release form stating that you have listened to and approved the master.

Turnaround time: Turnaround time averages two weeks or more for design, two weeks printing and two to three weeks for replication. There may sometimes be some overlap of the printing and replication stages.

Terms: All projects require a deposit in the amount of 50% of the estimated total cost unless other arrangements have been made. The balance of the project is due at or prior to the time the finished product is delivered to you. Payment may be with cash, check, money order, or Mastercard or Visa through PayPal.

Guarantee: All products are fully guaranteed against defects in workmanship. Products determined by BauWau Design to be defective will either be corrected or a refund equal to the cost of the product will be issued.

Before you choose a package from the following pages, please consider the following questions:

1. How many pages do you need for your folder or booklet to fit all of your text and images.
2. Do you want to print full-color or a black/white color scheme on your print materials.
3. How many will you need to print?
4. Would you like to print the back side of the tray card so it shows through a clear jewel box tray?
5. Do you need a UPC bar code? If so, will you provide one or do you need to lease one from me?
6. Are you providing all of the publishing and mechanical licensing information or would you like me to research it?

Once you have decided on your package, here is what I need to design your project:

1. Compile any photographs, original art, logos or other images you would like to use on the print materials. (Hint: for best results, provide all photos from a photo shoot, even if you don't like them. Sometimes small sections of a bad photo will make interesting design elements or backgrounds.)
2. Compile all of your text, which may include:
 - Title and artist
 - Tune list w/times
 - Publishing information for each song
 - Personnel
 - Liner notes
 - Credits, thank-you's
 - Product number (goes on the spine of the tray card for re-sellers to order product from you)
 - Record label name
 - Contact information
 - Copyright / Performance Rights holder

Text must be provided in one of the following ways (in order of preference): email, disc, computer generated or typewritten paper, handwritten. All text must be spellchecked and in its final form. I assume no responsibility for errors in the text.

3. Feel free to provide any ideas for the design style or the mood that you would like to capture. Examples of other CD or cassette printed materials or other printed materials are acceptable, too.
4. The prices on the following pages are guidelines and subject to change depending on the specifics of your project. If you're not sure about anything in this price guide or have questions, call for a free consultation.

A standard CD Package with printing and replication should include the following:

- Design (includes insert/folder/booklet, tray card and disc label design)
- Anything from the Miscellaneous section (mechanical licenses, UPC)
- Prepress (film for disc label)
- Printing
- Replication (includes disc label printing, jewel box, assembly, wrapping and shipping)

NOTE: Numbers following some design and printing descriptions indicate number of inks printed on each side of a piece. For example (1/0) represents one color (black) on the outside/front and no printing on the inside/back. (4/1) represents four colors (or full color) on the outside and one color (black) on the inside.

CD Insert / Tray Card Printing:

The prices that follow are for the most common CD configurations. If you don't see what you want, please ask. Many more options are available.

All CD print materials are printed to industry specifications on 100 lb. gloss text paper stock and include an aqueous coating for protection from smudging. Prices include 10% over in quantity to accommodate possible manufacturing overrun. Prices do not include film output and printer's proofs.

CD Replication:

Includes:

- Up to 74 minutes of audio or 650 Mb of data
- Up to 5-color silk screened label on the CD
- Assembly of CD and print materials into a jewel box with black tray and cellophane wrap

Prices do not include mastering to CD-R, design, film output or printing services.

All orders are subject to an overage or shortage of up to 10%. You will be charged for the actual number of CDs you receive.

CD-R Duplication:

Includes:

- Up to 74 minutes of audio or 650 Mb of data
- Paper label or direct inkjet printing on the CD

Prices do not include mastering to CD-R, design, film output or printing services.

Additional Options / Products:

Booklets (call for estimate):
